

Dear Ms Finckelstein,

I am writing to pledge support for the submission made to DEFRA under the Agricultural Bill Review asking that the semi-wild ponies of Dartmoor are considered a Public Good attracting Public Payment

Will you personally ensure that DEFRA values these pony herds' place in our region's culture and history?

Will you ensure that DEFRA recognises they create biodiversity by the way they graze the moor?

Will you ensure Dartmoor's semi-wild pony herds are accommodated in DEFRA policy and are recognised as a Public Good?

Will you ensure that DEFRA policy supports these pony herds as they draw people outside and into Dartmoor National Park, benefiting their health?
